CONTENTS

(Abstracted, Indexed in: Anal. Abstr.; Biol. Abstr.; Chem. Abstr.; Curr. Contents Phys. Chem. Earth Sci.; Life Sci.; Index Med.; Mass Spectrom. Bull.; Sci. Citation Index; Excerpta Med.)

General Analytical Chemistry

A modified combustion method for the determination of the surface and bulk carbon contents of high-purity metals
K. Gretzinger, E. Grallath and G. Tölg (Dortmund, F.R.G.) 1

Flow-injection determination of ammonia in Kjeldahl digests by gas diffusion and conductometry
C. Pasquini and L. Cardoso de Faria (Campinas SP, Brazil) 19

Physical, chemical and immunological characteristics of continuous-density lipoproteins isolated by single-spin gradient ultracentrifugation
F. Tallet, R. Couderc, G. Lefevre, M. P. Brunet-Coulhon, J. Yonger, D. Raichvarg and S. Laoussadi (Paris, France) 29

Preparation, ultraviolet spectrophotometric determination, and aqueous decomposition of alkyl xanthic anhydrides
M. H. Jones and J. T. Woodcock (Melbourne, Vic., Australia) 41

Integrated scheme for micro-determination of iron oxidation states in silicates and refractory minerals
E. Kiss (Canberra, A.C.T., Australia) 51

Electrometric Methods

Carbon fibre electrodes in flow potentiometric stripping analysis
H. Huiliang, C. Hua, D. Jagner and L. Renman (Lund, Sweden) 61

Automated determination of cadmium and lead in whole blood by computerized flow potentiometric stripping with carbon fibre electrodes
L. Almestrand, D. Jagner and L. Renman (Lund, Sweden) 71

Square-wave voltammetric determination of daminozide
R. M. Ianniello (Wayne, NJ, U.S.A.) 81

Glucose sensor based on a field-effect transistor with a photolithographically patterned glucose oxidase membrane
Y. Hanazato, M. Nakako, M. Maeda and S. Shiono (Hyogo, Japan) 87

Frequency properties of a piezoelectric quartz crystal in solutions, and application to total salt determination
S.-Z. Yao and Z.-H. Mo (Changsa, People's Republic of China) 97

Spectrometric Methods

Formation of two reaction zones in flow-injection systems for kinetic determinations of cobalt and nickel
A. Fernandez, M. D. Luque de Castro and M. Valcárcel (Córdoba, Spain) 107

Simultaneous determination of metals in two component mixtures with 5-sulfo-8-quinolinol by using phase-resolved fluorimetry
K. R. Vitense and L. B. McGown (Stillwater, OK, U.S.A.) 119

Indirect atomic absorption spectrometric determination of mixtures of chloride and iodide by precipitation in an unsegmented flow system
P. Martínez-Jimenez, M. Gallego and M. Valcárcel (Córdoba, Spain) 127

Automated direct determination of chromium in blood and urine by electrothermal atomic absorption spectrometry
J. J. McAughey and N. J. Smith (London, Gt. Britain) 137

Rapid determination of copper, nickel, lead and cadmium in small samples of estuarine and coastal waters by liquid/liquid extraction and electrothermal atomic absorption spectrometry
S. C. Apte and A. M. Gunn (Marlow, Gt. Britain) 147

Electrothermal atomic absorption spectrometry of elements after electrochemical deposition on graphite electrodes
M. Veber, V. Streško and S. Gomišček (Ljubljana, Yugoslavia) 157

Quelques interferences sur le dosage du plomb dans les eaux alimentaires par spectroscopie d'absorption atomique sans flamme
J. Vandegans, P. Rosseels, W. Verplancken et J.-C. Haurez (Bruxelles, Belgique) 169

Organophosphorus acid interferences in flame atomic absorption spectrometry
A. M. Maitra (North Ryde, N.S.W., Australia) and E. Patsalides (Sydney, N.S.W., Australia) 179

Separations

Coupling of narrow-bore liquid chromatography to thin-layer chromatography. Part 2. Application of fluorescence-based spectroscopic techniques for off-line detection
J. W. Hofstraat, M. Engelsma, R. J. van de Nesse, U. A. Th. Brinkman, C. Gooijer and N. H. Velthorst (Amsterdam, The Netherlands) 193

3,4-Dihydro-6,7-dimethoxy-4-methyl-3-oxo-quinoxaline-2-carbonyl azide as a highly sensitive fluorescence derivatization reagent for primary, secondary and tertiary alcohols in high-performance liquid chromatography
M. Yamaguchi, T. Iwata, M. Nakamura and Y. Ohkura (Fukuoka, Japan) 209

Determination of methylarsenic compounds in airborne particulate matter by gas chromatography with atomic absorption spectrometry
H. Mukai and Y. Ambe (Ibaraki, Japan) 219

Aqueous size-exclusion chromatography of humic acids on a sephadex gel column with diluted phosphate buffers as eluents
S. Mori (Mie, Japan), M. Hiraide and A. Mizuike (Nagoya, Japan) 231

Selective substoichiometry for inorganic arsenic(V) by ion-pair extraction with pyrogallol/tetraphenylarsonium chloride and its application in the analysis of seaweed
N. Suzuki, F. Jitoh, H. Imura and Y. Kanda (Sendai, Japan) 239

Extraction of selected tervalent lanthanides with *N*-phenylacylhydroxamic acids
T. Cecconie, M. Hojjatie and H. Freiser (Tucson, AZ, U.S.A.). 247

Computer Methods and Applications

Stepwise deletion: a technique for missing-data handling in multivariate analysis
J. B. Hemel, H. van der Voet, F. R. Hindriks and W. van der Slik (Groningen, The Netherlands). 255

SOLOMON, a classification program based on a statistical multivariate disjoint model
H. Steigstra, A. P. Jansen and G. Kateman (Nijmegen, The Netherlands) 269

Investigation of the relative merits of some *n*-point current approximations in digital simulation. Application to an improved implicit algorithm for quasi-reversible systems
D. Britz (Aarhus, Denmark) 277

Quantification of a known component in an unknown mixture
H. Gampp, M. Maeder, C. J. Meyer and A. D. Zuberbuehler (Basle, Switzerland). 287

A receptor model for urban aerosols based on oblique factor analysis
K. Keiding, M. S. Sørensen (Aalborg, Denmark) and N. Pind (Aarhus, Denmark). 295

Short Communications

Recording the real sample distribution and concentration/time functions in flow injection analysis
E. A. G. Zagatto, O. Bahia F° and H. Bergamin F° (Sao Paulo, Brazil) 309

Micro-fusion and spectrophotometric determination of iron(II) and iron(III) in chrome spinels and other refractories
E. Kiss (Canberra, A.C.T., Australia) 315

Formation and reduction of molybdothorophosphoric acid
M. Balón and M. A. Muñoz (Seville, Spain) 325

Spectrophotometric determination of chloride in non-polar media by the mercury(II) thiocyanate reaction
B. Vekíc and D. Ražem (Zagreb, Yugoslavia) 331

Cyclic flow-injection determination of copper with hexadecyltrimethylammonium bromide micelle-enhanced, fluorescein-sensitized chemiluminescence detection
M. Yamada and S. Suzuki (Tokyo, Japan) 337

Fluorimetric determination of nitrate in natural waters with 3-amino-1,5-naphthalenedisulphonic acid in a flow-injection system
S. Motomizu, H. Mikasa and K. Tôei (Okayama-shi, Japan) 343

Simultaneous determination of histamine and spermidine by second-derivative synchronous fluorescence spectrometry
M. C. Gutierrez, S. Rubio, A. Gomez-Hens and M. Valcárcel (Córdoba, Spain) 349

Emission efficiency for particulate forms of iron and aluminum in rain-water measured by inductively-coupled plasma atomic emission spectrometry
Y. Ambe and M. Nishikawa (Ibaraki, Japan). 355
Low-temperature hydride furnace modified for the atomic absorption spectrometric determination of metals with low appearance temperatures
C. Bruhn, H. Berndt and M. L. Tristao (Dortmund, F.R.G.). 361
Enantiomer-selective membrane electrode for amino acid methyl esters
T. Shinbo, T. Yamaguchi, K. Nishimura, M. Kikkawa and M. Sugiura (Ibaraki, Japan). 367
Extraktionsverhalten methylsubstituierter chinolin-8-ole gegenber kupfer
A. Friedrich, H. Bukowsky, E. Uhlemann (Potsdam, G.D.R.), K. Gloe und P. Mühl (Dresden, G.D.R.) 373
Preconcentration of antimony(III) from water with thionalide loaded on glass beads with the aid of collodion
M. Matsui, K. Matsumoto and K. Terada (Ishikawa, Japan) 381
Liquid/liquid extraction separation of hafnium with amberlite LA-1 from zirconium and other elements in citric acid solutions
C. P. Vibhute and S. M. Khopkar (Bombay, India) 387
